DIPLOMA IN BUSINESS INFORMATION SYSTEM

Business Information System - often referred to in the industry as BIS - are systems that combine information technology, people and business. BIS use IT solutions to improve communication and business organisation. This can have a huge effect on an organisation's productivity and competitiveness.

Those who study BIS are:
- High-achievers with the ambition to work in a cutting edge industry.
- Interested in a career in business, but also enjoy working with computers.
- In possession of strong analysis and communication skills.
- Interested in solving problems using solutions that will increase an organisation's productivity and profit.

This program is designed to meet the growing needs of industry for a new type of information professional. Graduates from this programme possess the knowledge and skills needed to bridge the gap between business objectives and the use of IT based systems. As a result, they will find opportunities available in many fields from traditional businesses such as Banking and Fast Moving Consumer Goods (FMCG) to those firms driving technological change such as Internet Service Providers (ISPs), Outsourcing Companies and IT Consultancies.

Career Prospects
- Systems Analyst
- Business Analyst
- Project Manager
- Internet Service Provider
- Database Designer & Administrator
