# UNIVERSITY PLACEMENT

Sunway College Johor Bahru established a Placement Support unit with the aim of supporting student advancement upon their completion of studies with the College. The unit provides support services that facilitate the effective university placement for Pre-University students looking to pursue undergraduate studies.

The university application process and entrance interview preparation are daunting tasks to a student. Proper guidance and advice on how to make sound choices are part and parcel of the placement support services. Through regular arrangement of on-campus activities such as university admission talks, career counselling services, personal

statement writing workshops and related activities, the College provides the necessary support needed by students. In addition, university application announcements and referral writing are also some of the efforts undertaken towards providing the assistance needed to support each unique applicant.

Representatives from renowned universities regularly visit and conduct engagement activities with students. These include admission and pre-departure briefings, personal consultation and hands-on workshops which are scheduled throughout the year to introduce students to the many options available at tertiary level as well as facilitate a smooth transition into university.

An annual on-campus Education Information Day and University Showcase is organised to bring representatives from popular universities and education agencies worldwide under one roof. This event is primarily to facilitate submission of university applications in addition to providing a platform for further enquiry by students and their parents at a one-stop location.

The Placement Support unit is managed by a dedicated team who have helped many alumni successfully gain admission into highly regarded universities and institutions of higher education, both locally and globally.
